**Synergy Shipbuilders** started as Siddarth Engineering & Shipbuilding Pvt. Ltd. in the year 1988. The company was established by Mr. Shriram Malik, to build and maintain the companies personal fleet of various Inland vessels. In the year 1996 the company build its first vessel for a domestic client.

Since 1996 the company has experienced tremendous growth in our shipbuilding division and our ships that are built are very well received by the customers. Today, **Synergy Shipbuilders** is one of the Prominent Shipbuilders in Goa-India.

Our Shipbuilding Division focuses on Manufacturing & repair of all types of Marine Vessels. These vessels are built to the best international shipbuilding standards and quality is always our utmost priority.

We have built various different type of Vessels for various International and domestic clients. These include, Landing Crafts (LCT's), AHTS, Passenger boats, Cargo Vessels, Tankers etc. All Vessels were built and delivered to clients as per the time frame of the clients.
